Silver Jubilee Celebration

Jubilee Buttons Will Be Presented to all Children

All the school children in the district have been invited to take part in the Jubilee celebration which will be held on Monday next, May 6th.

The children are asked to meet at the C.P.R. grounds shortly after one o'clock and the parade will commence at 1:30.

Headed by the Didsbury Boys Band the school children will march in units headed by their teachers to the school grounds. A contingent of the Canadian Legion will bring up the rear of the parade.

At the school grounds patriotic songs will be sung and an address will be given by Mr. Geo. Clarke of Eagle Hill, Reeve of the Municipality of Westerdale.

After the exercises sports for the children will be held and ice cream will be served.

All the children will be presented with Jubilee Buttons commemorating the occasion.

Saw Mill Accident

Ezard Eliasson, a workman at the Burgess Saw Mill at Bergen, had the misfortune to slip and get his hand into the saw on Monday. He was brought to the Didsbury Hospital and the hand was found to be so badly cut that it had to be amputated at the wrist. Dr. Clarke was the attending surgeon.

C.P.R. Offers Special Fares for King's Jubilee.

As May 6 has been declared a national holiday in recognition of the King's Silver Jubilee, special low fares on the Canadian Pacific will apply over the weekend for travel between all stations. It is announced by Mr. J. A. McGhee, ticket agent.

For those who intend to take advantage of what promises to be one of the most popular weekends of the season, tickets will be sold good going from Friday, May 3, to and including 2 p.m. Monday, May 6, with return limit until Tuesday, May 7.

Alberta's Election Likely June 28th

Expect Delay Until Douglas Reports On Social Credit Reid Silent

Alberta's general election is likely to be held Friday, June 28 according to unofficial word emanating from the legislative buildings, and while Premier Reid is reticent as to the actual date, this is believed to be very close to the mark set by the cabinet.

This discounts rumors current immediately after prorogation of the House that the election would be called at the earliest possible date or immediately after the 30-day period which must elapse following proclamation of the writ.

The late June date is considered much more likely in view of the fact that Major Douglas is now on his way to Alberta on request of the government to act as its adviser on Social Credit problems, and if his advice is to have any effect on the result of the poll, some weeks will probably be allowed to elapse to disseminate his findings and opinion regarding the Aberhart system and the possibility of its application in Alberta. It is expected that Major Douglas will reach Edmonton about May 4.

It is also reported that a number of school inspectors have been notified that school buildings in their inspectorates will be required as polling places late in the last week of the term.

Returned Men to Parade May 6th

All returned men are requested to meet at the Odd Fellows' Hall on Monday, May 6 at 12:45 p.m. to join in the parade in honor of His Majesty the King.

Evangelical Church Notes

Rev. H. J. Harder will be the guest preacher next Sunday morning. In the evening a patriotic service will be held in honor of the silver jubilee of Their Majesties accession to the throne. The Didsbury Boys' Band will render special music for the service.

WEEKLY SERMONETTE

"The man who is living for God invites attacks upon himself."

Notices have been mailed to all polls in the Olds constituency to select delegates to attend a Liberal convention on Thursday, May 2 for the purpose of nominating a candidate to carry the Liberal flag in the provincial election. W. R. Howson, K.C., M.L.A., will be the principal speaker at a mass meeting in the evening of the nomination convention. The convention will be held in the Olds Arena at 2:30 p.m.

BIRTHS

at Didsbury General Hospital

April 21, to Mr. and Mrs. Thomas Hunt of Cremona, a daughter.

April 24, to Mr. and Mrs. Russell Haley of Cremona, a daughter.

April 25, to Mr. and Mrs. Wilbur Rieder, a daughter.

April 28, to Mr. and Mrs. Dave Buckler, a daughter.

Didsbury Liberals Will Nominate Candidate.

W. R. HOWSON, K.C., M.L.A.
Leader of the Provincial Liberals who will speak at the Mass Meeting

The Liberals of the Didsbury constituency will meet in convention at Acme this Friday afternoon (May 3) to nominate a candidate to contest the forthcoming provincial election. Delegates from every polling division in the constituency are expected to be present.

In the evening a mass meeting will be held in the Hardware Hall, Acme, at 8 o'clock. The provincial Liberal leader, W. R. Howson, K.C., and the selected candidate, will address the meeting.

Aids in Manhunt.

Charlie Mortimer had an exciting afternoon Friday last when he was drafted by the police to assist in the hunt for David S. Knox, the crazed farmer who had shot and killed Corporal Moriarity near Drumheller.

When the call came the Carbon policeman found his car out of commission, so he commandeered Charles and his car to take him to the scene of action.

Together with other police they cornered Knox in a granary, and after a terrific gun battle the crazed farmer fell before a rain of bullets from the guns of the police.

According to the Calgary Herald Charlie located himself in a straw stack and covered the farmer with a .22.

Snow Welcomed By Farmers

The snow which fell all day on Tuesday brought smiles to the faces of the farmers. Although it will delay for a few days the already late seeding the welcomed moisture will put the land in much better shape and the pastures will be greatly benefited.

About six inches of snow fell during the day and it is thought that will now be sufficient moisture to give the crop a good start.

Didsbury Calf Club Will Sponsor Lecture

The Didsbury Calf Club will open its activities for the season with a meeting in the basement of the Public School tomorrow evening (May 3) at 8:30 o'clock.

Mr. Wilson, of the Dominion Experimental Farm at Lacombe, will give an illustrated lecture on "Breeds and Breeding," which will be of great interest to all farmers and stockmen, both young and old.

The lecture will be supplemented with a program presented by local talent. Everyone is invited to attend.

No Rural Delivery Monday, May 6th

The Postal Department has authorized a holiday for rural mail delivery contractors on Monday, May 6. There will, therefore, be no rural mail delivery from Didsbury on that date.

Jubilee Cancer Fund.

An easy and pleasant way to make a small contribution to the Jubilee Cancer Fund is to buy a ticket for the benefit concert which will be given in the evening of Monday, May 6.

A good program of vocal and musical numbers has been arranged by the committee, and the concert will be well worthy of your support.

At the close of the concert a dance will be given, when Halliday's Rhythm Band will play both old and new dance numbers.

Refreshments will be served by the ladies of the I.O.O.F.

Social Creditors to Nominate Candidates

The Social Credit nominating convention for the Didsbury constituency will be held on Saturday next at Acme.

The convention will nominate three or four names which will be placed before the advisory board by seven delegates from the convention.

The delegates from No. 1 Group will be H. Erb, A. Schwesinger and Herb Sinclair.

No. 2 Group will be represented by Rae Lantz, Tom Morris and F. Moyle.

In the evening a big mass meeting will be held.

BORN

On Thursday, April 25, to Mr. and Mrs. Lloyd Stauffer, a son, Mayland Willard Glen.

A Welcome Declaration Of War

The people of Canada, under the leadership of Their Excellencies the Governor-General and Lady Bessborough, supported by the Dominion and Provincial Governments, all political parties, the churches, the press, the medical profession, organizations of every description, and men and women of goodwill throughout the length and breadth of the Dominion, have decided to commemorate the twenty-fifth anniversary of the accession of King George V. to the throne of the world's greatest empire on May 6 by a declaration of war.

Canadians are a peace loving people; they abhor war, and their whole history proves that they never engage in war except when absolutely forced to it in self-defence, but, once in, they fight to the finish with all the strength, energy and resources they can command. Fighting in their own defence they never remain on the defensive but adopt vigorous offensive tactics to bring about the defeat of the common enemy and safeguard their own existence. History proves this to be true.

So, with the lives of thousands of their people at stake, all Canada has decided to mark the Silver Jubilee of His Majesty, who has been well described as a kindly man and a manly king, by a declaration of war upon a common world enemy—cancer. The ammunition required to prosecute this war is—money. Money is necessary in the conduct of all wars, and in 1914-1919 Canada supplied it in the hundreds of millions, yes, billions. In this new and humanitarian war a substantial war chest is essential to success, although not in the enormous sums referred to above. Every Canadian family is asked to contribute to the extent of their ability.

Mankind is forced to wage a continuing war against disease, and looking back over past years it is gratifying to know that, taken as a whole, it has been a successful war. A few years ago the great scourge was Tuberculosis, the White Man's Plague, which topped the list of diseases afflicting the race. To-day it is in retreat, now far down the list, with a steadily diminishing number of victims.

Yellow fever, which once counted its victims by the thousands, is unknown; smallpox has been eradicated; diphtheria, which carried off children by the thousands, has been conquered through the discovery and use of anti-diphtheria serum; cholera, typhus, and other plagues are now practically unknown, with the result that the expectation of life has been more than doubled, nearly trebled, within the past 100 years.

On the other hand, the ravages of cancer continue to increase until to-day it is responsible for more deaths than any other disease with the single exception of diseases of the heart. Cancer comes second on the list and in 1933 was responsible for 10,646 deaths in Canada as compared with 7,614 only seven years previously in 1926, and the toll is progressively rising higher each year, having increased from 93.9 per 100,000 in 1931-32 to 100 per 100,000 in 1933.

This is the common enemy that now calls Canada to arms and has resulted in this Silver Jubilee declaration of war.

Contrary to a view widely held, cancer is not an incurable disease. It can be cured if it is discovered and treatment commenced in its early stages. Early diagnosis is the all-important factor. But to secure early diagnosis involves, first, education of the public, the provision of a largely increased number of qualified diagnosticians, and facilities for treatment throughout the whole country. These are the essential munitions in this war, and they cost money.

The people of Canada, the rich, the merely well-to-do, even the poor, are called upon to enlist in the army of attack on his dread enemy which is now on the offensive against our people and scoring a victory over us. As a Canadian people we must now take the offensive, take it boldly and in a large way, and fight back. If we do, success can and will be achieved.

The idea of the "King George V. Silver Jubilee Cancer Fund for Canada" is an admirable one. It will be administered by trustees and every dollar will be spent in Canada, in the saving of Canadian lives. To establish that fund each Canadian family and household is asked to contribute one dollar, or as many more dollars as they can. Contributions may be sent to Lady Bessborough, Government House, Ottawa, who will acknowledge every donation received, large or small, on a card bearing the portraits of the King and Queen.

Thus does Canada propose to commemorate the Silver Jubilee of His Majesty by the creation of a permanent national anti-cancer fund. It will be an expression of the loyalty and affection of the Canadian people to His Majesty and at the same time a tangible, lasting and humanitarian record of a great national event.

Building Traffic Subways

Paris Found First One To Be Huge Success

Because of the success of the first traffic subways, Paris is pushing the construction of additional ones. These passages are designed to insure the continuity of the circular road built in place of the former fortifications surrounding Paris. This road, complete, will be nearly 20 miles long, 133 feet wide, and will permit the passage of six rows of cars. Sidewalks on each side of the road are over three feet wide. Where this circular route meets the main arteries leading out of Paris it has been attempted, wherever possible, to direct traffic around a central plateau which serves as an axis. This eliminates to a certain extent the danger resulting from the crossing of cars from various directions and helps to reduce traffic tie-ups.

Arcades For London Streets

Expert Predicts City's Shopping Centres Will Be Covered

Women will soon be able to do all their window-gazing under cover in London, according to a merchandising expert, who says that the shopping centres will be a series of arcades. Mannequins will emerge from the shelter of the stores, where they already are continuously on display, and appear in windows in place of the present wax figures, which have gone from the realistic to the fantastic and back again.

WAS CONSTIPATED FOR 30 YEARS

Woman's Long Search For a Remedy

The trouble with most remedies for constipation, as this woman found, is that they give only temporary relief. Having at last found a permanent corrective, she writes to tell us about it:—

"For upwards of 30 years I was a victim of acute constipation. I tried practically everything that it was possible to try. I admit I was a chronic case, and every new remedy I tried helped for a day or two—after that I was just as bad as ever. Three months ago I took my first taste of Kruschen Salts, and every morning since, and every morning so long as I live, my first duty upon rising is my Kruschen. I honestly feel a different woman. My bowels act to the clock, and my friends remark how well I am looking. My only regret is that I didn't try Kruschen years ago."—(Mrs.) A. M.

Kruschen Salts is Nature's recipe for maintaining a condition of internal cleanliness. The six salts in Kruschen stimulate your internal organs to smooth, regular action. Your system is thus kept clear of those impurities which, allowed to accumulate, lower the whole tone of the system.

Installs New Equipment

Montreal Institute One Of Leading Cancer Cure Hospitals

The Radium Institute of Montreal became one of the leading cancer treatment hospitals in the world with installation of apparatus generating 500,000 volts. The institute hopes to raise the voltage mark to 1,200,000 in a short while, Dr. J. E. Gendreau, director, announced.

"Ultra penetrating X-rays at a voltage of 500,000 were put in operation only after extremely careful physical measurements preparatory to cancer treatments, and the apparatus has been used for the first time on patients," Dr. Gendreau said.

"This apparatus is the largest and most powerful in Canada and is surpassed by but a few in the United States or Europe," he said. He stressed the necessity of adequate institutes in different countries to fight cancer with great success.

Best She Could Do

A rather stout woman was making herself a nuisance in the big shop which was holding its annual sale. Nothing, it seemed, would suit her, and the unfortunate shop-assistant was beginning to get a little weary.

"Haven't you anything ready-made that will fit me?" asked the customer at last.

"Yes; the umbrellas and the handkerchiefs are downstairs, madam," the girl replied.

"Growing" A Sea Wall

Rice Grass Effective In Preventing Flooding Of Land

The cultivation of rice grass on the low-lying lands of Essex and other similar mud flats in England may result in turning thousands of acres of waste land into profitable pasture. Spartina grass became known in Great Britain about 100 years ago through a few seeds dropping accidentally from some cargo ships at Southampton Docks. They took root and formed a hybrid with British grass which attracted the attention of agricultural scientists who saw the possibility of "growing" their sea wall instead of spending thousands of pounds on sea defence to prevent the land being flooded. Experiments have proved that such a wall is not worn away by the tide, and now Holland and Australia are planting rice grass with a view to converting large tracts of marshes into pastures.

Should Be Lucky

Schoolmaster In England Has Collection Of Unusual Horseshoes

A schoolmaster at Wimbledon is an ardent collector of horseshoes. But not ordinary horseshoes. He specializes in ancient horseshoes. The walls of one of his rooms are covered with scores of them. They even overflow to other rooms. One of his horseshoes was discovered on the site of a Roman camp. In all probability it was cast from the foot of a charger ridden by a Roman general.

Crocodiles of Africa sometimes grow to be 25 or 30 feet long.

Correspondence Of Kings

Findings In Palestine Date Back To 700 B.C.

The correspondence between two kings dating back to the time of Jeremiah, 700 B.C., has been discovered by the archaeological expedition led by Prof. J. L. Starkey, of Great Britain, it was learned.

The discovery was made at Tel Ad-Dumweir, ancient city of Lachish. It consists of 12 Ostaraka fragments, which are taken to be an exchange of secret letters between the kingdom of Judea and the kingdom of Babylon or Egypt.

Details of the findings were made known to the Palestine government, but were not given out to the press.

Man's Battle Against Insects Goes On As Fifteen Thousand New Kinds Are Found Yearly

Unknown to the world in general, a war—a great world war which grows fiercer every year—is being relentlessly waged by man for his very existence against insects.

Fifteen thousand new kinds of insects are found every year, and to combat this menace man is enlisting the friendly ones to his aid.

A world with insects as the rulers and man as the insect has sometimes been visualized by writers of "scientific romances," and although this may appear fantastic and imaginary to the layman, if insects were allowed to multiply unchecked man would soon become overwhelmed by them.

Some cold facts about insects have been revealed by Dr. S. A. Neave, of the Imperial Institute of Entomology, London.

"Man's battle against insects can never cease," Dr. Neave said. "That is why we have so many different names, universally accepted, so that scientists can tell each other their discoveries and the best way of combating harmful pests."

"For much of the battle is waged by pitting useful insects against the harmful ones."

"In zoology, specimens are given two names. One is the general name, and the other is the name of the species."

"The generic name is given to a group of species whose close resemblance to one another shows them to be related. Thus mouse and rat, though they are different species, are known by the generic name of mus."

"Few people realize the enormous part played in zoology by insects. Every year 1,000 new insects genera are discovered, and as many as 15,000 new specimens."

"It has even been calculated that if the total weight of the insects in Africa could be balanced against the total weight of the animals, the weight of the insects would be the greater."

"Insects are constantly adapting themselves to new conditions. There is a kind of fly found in oil wells which, generation after generation, is adapting itself to live without harmful effects in oil and prey on other insects that fall into it."

"And there is another kind of insect which spends its entire existence from birth to death in pepper."

A book that will give the generic name of every beast, bird, reptile and insect known to zoologists has just been begun by Dr. Neave.

The book, which will be used by scientists all over the world, is to be called the "Nomenclature Zoologicus." It will take three years to compile.

Nothing so comprehensive has been produced since Linnaeus, the great Swedish scientist, compiled his *Naturalis* in 1758. Since then millions of new species have been discovered, and no fewer than 190,000 new generic names coined.

Health Plan For B.C.

Scheme To Be Laid Before People For Discussion

A draft health insurance plan for British Columbia which may be introduced at a future session, was explained to the British Columbia legislature by Hon. G. M. Weir, provincial secretary.

The scheme will be laid before the public for full discussion and opportunity given for expression of opinion by all interested parties.

The plan is designed to establish a system of health insurance which will provide protection against the hazards of illness for the large section of the people unable to budget individually for adequate health services or bear the loss of income caused by illness.

Thanks To Science

Science has made it possible for man to live without severe strain in the rarefied space miles above the earth, by eliminating carbon dioxide from the air in the balloon gondola and adding oxygen, by regulating temperature and humidity, and keeping the air fresh.

The Cost Of Raising Turkeys

Turkeys Can Be Raised On Prairies With Very Satisfactory Results

At the Dominion Experimental Station at Scott, Sask., turkeys have been grown for the last six seasons with quite satisfactory results. The hatching and brooding have been done artificially. The turkeys were kept separate from chickens and confined to yards where no poultry had been for several years and a fresh yard was provided each year.

Records kept of fuel used for incubators and brooders together with feed records of grain, grit, oyster-shell, mash and milk for turkeys until they reached market weight show that when the price of mixed grain is about one cent per pound and the price of the other feed stuff is normal, the cost of fuel and feed rarely exceeds one dollar per bird.

The cost of fuel for incubators and brooders may be eliminated by resorting to natural incubation and brooding which is usually satisfactory when only a small flock is to be raised. The turkey hen is to be preferred to the chicken hen for this purpose.

It has been found that the turkey produces a pound of meat more economically than cattle, sheep or swine and sells for a higher price. In some seasons, the price of turkey is practically double that received for the other common meats. The growing pig is the nearest contender for the honors and requires from 300 to 400 pounds of grain for each hundred pounds of pork produced.

GARDENING

Gordon L. Smith

Seed

Good seed is the foundation of all successful gardening. Other factors may be beyond control, but the gardener has absolute check over the seed. Weather, soil and location may be ideal but without good seed, specially selected to suit Canadian conditions, the garden is going to be a failure. The average gardener is well advised to secure his seed and nursery stock from a reliable Canadian source because there is no guarantee that a flower which has given wonderful results in Great Britain or the Southern States will do equally well in this country.

Vegetable Hints

For best results the soil in the vegetable garden should be worked to good tilth early. To increase the fertility, well rotted manure should be dug in with a digging fork. The following seeds may be sown early in the open: Spinach, beets, carrots, radish, lettuce, onions, parsnips and peas. Seeds to be sown in the open after danger from frost is over: Beans, corn, melons, cucumbers, potatoes, pumpkin and squash. Seeds to be started in hot-beds: Cabbage, cauliflower, celery, tomatoes, peppers and egg plants.

Lawn Building

Since it is impossible to do much general repairing to a lawn already established, it is most important to get the very best seed when first starting out. There is a great range in price just as in tobacco because both products, in the commercial stage, are made up of blended mixtures and absolutely depend on the proportion of the higher grade lines which go into the mixture. A good lawn grass mixture is composed of at least half a dozen grasses. Some of these are quick growers, which come along speedily the first year and protect the later starting, finer stemmed, but really permanent grasses which will go to make up the lawn in the years to come. It is these permanent grasses which are the most expensive, but without a large proportion of them, the mixture will not make a satisfactory showing after the second year. Before sowing it is essential to get the soil raked level. Allow a week to settle, and any weed seeds to germinate and then on a windless day sow at the rate of one pound per 200 square feet, going over the ground twice, once across and once lengthwise. Then rake lightly, one way only so as to merely cover the seed, and if possible, finish the job with a heavy roller or pounder. When the grass is up two inches, commence mowing, using a very sharp machine so that there will be no danger of pulling out the young plants.

There are more than 50 kinds of butter and cheese. 2092

Fruit And Vegetable Products

Great Increase In Demand For Canadian Canned Goods

Representing a corresponding increase in the demand for Canadian canned fruits and vegetables, the volume of fruit and vegetable preparations produced in the Dominion increased about 100 per cent. during the period 1923-33. The industry engaged in the production of preparations from fruits and vegetables includes establishments specializing not only in canning, evaporating, and preserving these products but also in manufacturing vinegar, cider, pickles, catsup, sauces and other commodities of that kind. The most important branch of the industry is the canning of fruits and vegetables which is carried on most extensively in Ontario, British Columbia, and Quebec where the climatic conditions for the growing of fruits and vegetables are favourable.

The principal fruits canned in Ontario are apples, pears, plums, peaches, cherries, currants, gooseberries, blueberries, raspberries and strawberries. In addition, British Columbia has the apricot and the loganberry. The vegetables canned include tomatoes, peas, corn, beans, beets, carrots, pumpkins, squash, spinach, and asparagus. The canning season begins in June and continues until October and is at its height in July, August, and September. The development of this industry has effected great changes in the relation of foods to seasons. Canned fruits and vegetables are to be obtained all the year round.

The speed of Halley's Comet varies from 34 miles a second when nearest the sun to less than a mile a second when furthest from it.

More Than 32 Per Cent. Of Canada's Total Land Area Is Occupied By Forests

Native Dogs Among Indians

Early Explorers Made Reference To Types They Found

Early explorers of this continent, especially in Canada, were greatly interested in the native dogs they found among the redmen. The narratives of explorers and colonists from Mexico to Hudson Bay abound in references to or descriptions of the various types of these animals they saw, and of the uses, customs and feasts in which they figured. One of the most interesting early accounts is in Charlevoix's *Journal* of his travels in Canada during (1720-22), and an old-fashioned English translation of it follows:

I forgot, Madam, to tell you that the Savages always carry a great number of dogs with them when they hunt; they are the only domestic creatures which they bring up, and they bring them up only for hunting. They all seem to be of the same species. Their ears stand upright; their nose is long, like that of a wolf; but they are very faithful and attached to their masters; who, nevertheless feed them but poorly, and never fondle them; they break them out to that kind of chase they are intended for, and they are excellent hunters.

Seeing an advertisement for "a meteorological observer," one man, on deciding to apply, said: "I saw a meteor once."

The SNAPSHOT GUILD

CLOUD PICTURES

Clouds add much to the beauty of the sky. Include them in every picture. It's easy to do.

It seems that too often we forget all about the fleecy white clouds, which add so much to the attractiveness and beauty of a snapshot. The average amateur will put forth great effort to secure sharpness, contrast and good composition in his ground subject and then completely overlook the possibilities of beautiful cloud effects.

One thing that really adds to the interest in a landscape picture is clouds. Suppose we are taking such a picture and use a film which responds only to ultra-violet, violet, and blue light. We should not be able to distinguish between the clouds and sky if we give enough exposure to show detail in the landscape. This is because the light from the blue sky and the white clouds is very rich in light rays to which the film responds.

Although clouds and blue sky are both rich in ultra-violet, violet and blue, there is a marked difference between the two. The lights from the clouds, being white, actually contain, however, a lot of green and red light, while that from the blue sky does not.

This then, suggests a way to effectively show clouds and sky in a snapshot. We must use a film which will respond to green, or to green and red light, and put over the lens a filter which does not let through the ultra-violet, violet and blue. The green or green and red light from the clouds will thus affect the film, while practically no light from the sky will get through to it, and in the finished print, the clouds will appear whiter than the sky.

Some film is sensitive to green

light only but super-sensitive panchromatic film will respond to both green and red light. All these films will, therefore, show up the clouds against the sky if used with a yellow filter.

From time to time you have perhaps heard of "filter factors". Here's what it means. Since the filter cuts out some of the light which would otherwise affect the film, a longer exposure must be given. The amount by which the exposure must be increased is known as the "factor" of the filter. It is noted by the number of times the exposure must be increased when using a color filter, as compared with the exposure without one.

The deeper the yellow color in the filter the more violet and blue it removes, or "holds back". The greater the "factor" the more the exposure must be increased.

As you will no doubt surmise, there are various types of filters and each type has its limitations. In choosing a filter you must make your own decision based on your general requirements.

If you do not want to seriously consider filter "factors" there is a filter known as a Sky Filter used extensively by amateurs to photograph clouds in a landscape with no increase in exposure time. Half of this filter is yellow and the other half clear. This filter can be used without increasing the exposure because the sky is photographed through the yellow part while the landscape, or general subject is photographed through the lower half, which is not colored. Yes, you can even get clouds with a silver lining.

JOHN VAN GUILDER.

Canadians have grown accustomed to hear complacent references made to the immense forest wealth of the Dominion. But few of them, even at this late date have any very accurate conception of its extent. Who, for instance, has been aware of the fact, reported by Ottawa, that Canada's forests occupy 1,153,000 square miles, or 32.8 per cent. of the total land area of the country?

Over half of the present forest area, 792,000 square miles, is considered accessible and capable of producing commercial timber crops. The remainder of the forests, such as those on high mountain slopes and in the Far North, have a value for their influence on the climate, water control, game conservation, and for local supplies of fuel and building material.

Of the accessible and productive forest area, about 379,000 square miles carry timber of merchantable size and 413,000 square miles bear young growth of various ages. Conifers predominate on 61 per cent. of the productive area, hardwoods on 12 per cent., and mixed stands on 27 per cent.

The accessible stand of merchantable size is estimated to have a stumpage value of \$1,715,000,000. In addition, 412,725 square miles of young growth at the low valuation of \$2 per acre are worth \$528,288,000. The total stand of timber is now estimated at 267,733 million cubic feet, of which 165,846 million cubic feet is classed as accessible and includes 290,000 million feet board measure of saw material and 920 million cords suitable for pulpwood, fuel-wood posts, etc.

Only one-tenth of Canada's forest area is privately owned, the balance being owned by the public through the Dominion or Provincial governments. But the forest industries make an annual contribution of \$582,570,000 to the wealth of the Dominion, and provide employment on a yearly basis for 244,000 people, whose annual wages total approximately \$250,000,000.

Hard-Surfaced Roads

British Columbia Plans To Extend Dustless Highways

A definite start on extension of dustless, hard-surfaced highways for British Columbia is assured for the present year, Hon. Frank M. MacPherson, minister of public works, informed the Automobile Club of Vancouver at its annual meeting.

Mr. MacPherson gave the members an idea of the problems of good administration in the province and told some surprising facts.

Trunk roads were already laid out on Ontario and Quebec when Alexander Mackenzie and Simon Fraser made their first exploratory trips across British Columbia to the Pacific Ocean, he said.

British Columbia to-day has 19,800 miles of roads to maintain. Quebec has 16,000.

The Quebec minister of highways apologized that he had only \$11,000,000 this year with which to maintain his 16,000 miles.

The British Columbia maintenance vote was \$1,500,000.

"What I could have done with even two or three of that eleven millions!" sighed Mr. MacPherson.

And Tend It Carefully

Sandy (entering nursery garden): Have ye a nice cucumber?"

Gardener: "Aye, here's one. That will be five pence."

Sandy: "Too much. Have ye no one for tuppence?"

Gardener: "Ye can hae this for tuppence."

Sandy: "All richt, here's the tuppence. But don't cut it off; I'll be calling for it in about a fortnight."

Observations over an extended period indicate that thin, sparse pastures for sheep encourage the growth of the finer grades of wool while thick, lush grass increases the proportion of the coarser grades of wool.

Tell Your American Friends.

At last somebody has "come to earth" in regard to tourists from across the border coming to Canada by automobile. Write and tell your American friends that they can come and visit you now under new regulations, which provide that neither bond nor deposit will be required hereafter, without regard to the duration of stay, up to a period of six months. This is more like common-sense business, as it not only eliminates delay at the frontier in obtaining the necessary bond, but also relieves the tourist of the expense of procuring a security. Under the old regulations tourists were required to obtain the bond of a guarantee company at the frontier port of arrival, and were often required to drive many miles to the nearest collector when endeavoring to obtain the necessary extensions. This is now done away with.

Sundre All Set.

Waiting for our basic dividends. Are we, to use the jargon of the times, 100 per cent Social Credit? Are we?

You might think, seeing the developments on the O.S. highway, we would be strong for the U.F.A. and would vote for Mr. Grisdale. You might think that some, for old times' sake, would vote for Mr. Clark and the Liberal ticket. You might think—but we won't mention the Conservative party. Only two or three Sundre people vote Conservative, and the fact is generally not mentioned in polite circles. A sort of skeleton in the cupboard.

No—we want the dividends and no kidding. So we're going to put Mr. Aberhart into power and do as he tells us, like good little Fascists.

We had a great meeting last Saturday in Sundre hall. Mr. Wilmott, the man from Mars, had a chart and a pointer. He was the master; we were the pupils. And how we absorbed the lesson. And didn't we laugh at his jokes. What wonderful comedians these speakers of Mr. Aberhart are. A lady asked us if the flippant approach as used by the Aberhart speakers was really necessary. Such ignorance! And somebody remarked that the Aberhart movement would be less visionary if there were no teachers in it. Sarcastic guy!

At the close the lecturer told his audience they had listened to him very intently. And therein lies the tragedy.—E.A.B. IN OLDS GAZETTE

Westcott Notes.

The Westcott Women's Institute met at the home of Mrs. R. C. Ray on Thursday, April 25th.

The meeting opened with O'Canada and the creed. After which the roll call was answered with a Canadian made article used in our home.

The resolution to be voted on at the coming convention were read and voted on by the members. Mrs. R. Webster then gave a short talk on the League of Nations.

Mrs. E. Owens who has recently been a patient of the Rochester Hospital gave an interesting talk on the Rochester Hospitals and the Clinics there.

It was decided to hold a Community Picnic on May 25th at the Red Deer River on the Westcott Road. Everybody welcome and bring your lunch basket.

The meeting was closed with the National Anthem and lunch was served by the hostesses.

The next meeting will be held at the home of Mrs. H. O. Levagood on May 30th.

HOW TO MILK.

Editor
The Pioneer
Dere Sir,

It has cum to my notis that there has been lots of trouble up in the north end of town about milking cows.

I am a dane, some peepul call me a great dane. Danes no how to milk cows.

You tie the cow easy, not too ruff, then you get to the back of the cow, and then you say, Wo, Bossie. You say that to fool the cow. Then you start to milk, easy. Don't pull, or the cow will kick. Just go soft, like a lady putting new gloves on her fingers. And if you can sing sumting, sing. Cows like musik. I wood like to help the peepul milk there cows, but I am terrible busy. However, just don't be afraid. The cow is a gentil animal, but it doesn't like sheeks, so if you are a sheek, you better leeve that cow alone. Whatever you do, go easy, don't get ruff, and the milk will soon fill your pale.

Yours trolly,
MILL KEEWEH

P.S. Don't try to milk a cow when he's asleep. That makes him mad.

Doings Of Our Neighbors.

AT OLDS: Arrangements have
been made for the annual sports day
on May 24. Baseball and sports
during the day and a boxing bout
in the evening.

Signposts have been placed on
the Olds-Sundre highway to detour
traffic via Eagle Hill. It will be
two or three weeks before traffic on
the road can be resumed.

AT CROSSFIELD: At a meeting of
the Rosebud M.D. the mill rate was
set at 6 mills for the current year.
Wages and fees are at the same rate
as last year.

Mr. W. Laut has definitely decid-
ed to seek the Liberal nomination
for the provincial constituency of
Cochrane.

Mountain View Notes

Members and friends of the W.I.
met for the April meeting in the
Community Hall, with Mrs. J. Hill
in the chair. A very enthusiastic
meeting was held, and Mrs. B. St.-
Clair told of ways and means of
raising funds. Each member is
required to bring some small article
to the next meeting and this is to be
auctioned off. It was decided to
have a one-day lecture during July,
and if possible to get the topic given
on Interior Decoration. Following
the business session a talk was given
by Mrs. B. A. Atkinson on Canadian
Industries, after which refreshments
were served by the hostess, Mrs.
Garnet Tighe, assisted by Mesdames
Blain and Worrall. The May meet-
ing will convene at the Community
Hall.

Two very well-attended Social
Credit meetings, one at the home of
Mrs. J. Steele and the other at the
home of Mrs. L. Dickau, were held
recently. After the business session
at the latter meeting a most instruc-
tive talk on Tanning was ably given
by Mrs. Birdsall. This lady is quite
an expert on the subject, and all who
heard the talk received a great deal
of information. These meetings are
held each Tuesday evening and the
members also have the opportunity
of listening-in to Mr. Aberhart's
regular broadcast. Mr. Hughie
Roberts is to be congratulated on
his ardent work along this line.

Road Graveling Program.

During 1934 the Provincial High-
ways Department completed a road
graveling program totalling 258.63
miles, of which 147.57 miles was
new graveling. This provided for
the extension of the main gravelled
highways as follows: Bow Island to
Medicine Hat; Castor to Corona-
tion; portion of Jasper highway;
Sedgewick to Hardisty; Holden to
Irma. There is now a total of 2,200
miles of gravelled highway in the
province.

CARD OF THANKS

We wish to thank the members
of the fire brigade and all those who
lent a hand in preventing to have
our home destroyed by fire.

The friend-maker

ADVERTISING plays no favorites—it makes friends OF you
and FOR you. It is constantly offering kindly assistance
by introducing worthy merchandise to you. It tells you
of the best foods; of the newest time and labor-saving device;
of opportunities to save money by making purchases at
certain stores on specified days. It even points the way
that enables you to keep physically fit and mentally alert.
Advertising is, unconsciously to you perhaps, your steadfast
friend. It has established an era of good feeling between you,
the stores, the manufacturers and their products. Advertis-
ing is HONEST and SINCERE. You can believe it
and believe in the products it calls to your attention.
ADVERTISING IS A REAL FRIEND-MAKER.

Read the Advertisements every week. They help
to make homes happier and more contented

"I tried that recipe you gave me for Mustard Pickles Mary, but it didn't turn out at all like yours."

"That's too bad, Jane. I've always had such wonderful results with Keen's Mustard!"

"Oh, I didn't use Keen's!"

"There's your trouble, Jane, right there. Keen's Mustard has the strength, flavour and 'nip' that is not found in any other."

KEEN'S D.S.F. MUSTARD

Made from seed grown especially in the Fens of England. The shells or hulls are removed, all the virtue being in the inner part of the seed. A superfine grinding makes the full flavour readily available. In original tins for as little as 10c.

Co-man-Keen (Canada) Ltd. Ltd.
1000 Amherst Street Montreal, Que.

WORLD HAPPENINGS BRIEFLY TOLD

The government bill appointing an economic council passed third reading in the House of Commons. There was no division.

The crew of four on a 70-ton motor craft were killed when the boat struck a mine, laid during the recent Greek revolt, in Salamis gulf.

Fire destroyed the Alberta Wheat Pool elevator at Kitscoty, Alta. Of 35,000 bushels capacity, built in 1913, it contained 18,000 bushels of wheat and the loss was around \$15,000.

Gerald C. MacGuire, 37, who catapulted into prominence recently in connection with a "Fascist plot" to seize the United States government, is dead.

With 16 new fighting aeroplanes already ordered, the Australian government plans to order another 36 this year and a similar number next year.

Four Chinese were convicted in county court of smuggling opium valued at \$4,000 into Vancouver from the Canadian Pacific liner Empress of Japan last year.

The King has sent \$250, his second donation, to the Implacable Fund, organized to preserve as a national monument the only Trafalgar battle-ship afloat.

Anticipating abnormal crowds in jubilee week, opening May 6, about 250 tea shop managers held a series of meetings in London to discuss ways and means.

Between 10,000 and 50,000 Australians are expected to visit England this summer for the jubilee celebrations and a considerable proportion of these will travel by way of United States or Canada.

Emphatic denial of reports that the government is proposing to bring down legislation to extend by possibly two years the life of the present Alberta legislature, which is scheduled to end next June, was made in the legislature by Premier R. G. Reid.

Marathon Runner (coming in an easy last)—Did you take my time? Timekeeper—I didn't have to. You took it yourself.

RELIEVE PERIODIC PAIN

If you suffer periodic pain and discomfort, try Lydia E. Pinkham's Tablets. In most cases they bring welcome relief. As Mrs. Caroline Newman says, "They ease the pain".

Mrs. Raymond Chaput, Route 4, Tilbury, Ont. says, "I suffered something terrible. Had such backaches and headaches I was worn out. Your Tablets helped me". Let them help you, too. Ask your druggist.

Lydia E. Pinkham's
TABLETS

May Have Sand Beach

Up-To-Date Swimming Pool On Liner "Queen Mary"

Specimen sections of the proposed grand stairway in the Cunard-White Star liner Queen Mary, show that the walls of the stairway will be panelled with paintings by prominent artists.

Work has been started on the first class swimming pool, where Italians are directing the laying of a special kind of ornamental tiles.

There will be an artificial palm beach adjoining the first class pool, where the palms will be stirred leisurely by soft breezes from hidden fans.

Margate corporation has offered to supply sand for the beach.

Interesting Souvenirs

Dated June 1897 Recall Queen Victoria's Diamond Jubilee

Jubilee plans bring jubilee memories for G. E. Davis, of Swift Current, Sask.

A "New Testament" and a cup, given Mr. Davis by the school which he attended in Southborough, Kent, England, commemorate the Diamond Jubilee of Queen Victoria and are dated June 22, 1897. Each of these articles bears a picture of the Queen with the inscription "V.R. 1837-1897 (Long Has She Reigned.)"

FASHION FANCIES

PRINTED TAFFETA AFFORDS COLORFUL INTEREST TO THIS DARLING CREPE COSTUME

By Ellen Worth

Here's a delightfully chic little jacket dress for casual wear.

It's navy blue sheer silk to be certain and its trim is navy and white taffeta. It's so fresh and young looking, you'll fairly want to live in it.

Note the tied scarf neckline of the dress. The jacket is nipped in at the line.

It's so utterly simple to make it. Perhaps you'd like it carried out in natural sportswear linen, so modish, with the bodice of the dress in nautical blue handkerchief linen. It's the sort of thing that adds dash to your summer wardrobe.

Style No. 864 is designed for sizes 14, 16, 18 years, 36, 38 and 40-inches bust. Size 16 requires 2 1/2 yards of 54-inch material with 2 yards of 39-inch contrasting and 1 1/2 yards of 39-inch lining for jacket.

Patterns 20 each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg.

The Spring Fashion Magazine is better than ever. Entirely illustrated in color you will find it a very stimulating fashion edition. There are clothes for cruising and clothes to brighten the lives of stay-at-homes. Many delightful little models for the smaller members of the family. Of course, patterns are obtainable for the designs illustrated. Send for your copy to-day, the price is 20 cents.

YOUR HANDWRITING REVEALS YOUR CHARACTER!

By LAWRENCE HIBBERT
(Grapho-Analyst)
(All Rights Reserved)

(Editor's Note: Letters come in every day testifying to the help that this well-known Handwriting Expert has been able to extend to others. Can he help you?)

Here are some more replies to correspondents. Readers may find some of their own difficulties and problems dealt with here.

Miss D. C.: Your writing reveals that you are somewhat disposed to enlarge apparent slights and to resent them. Yours is not a nature that easily forgives; and this is where you might start to develop a broader point of view. Do not be in too much of a hurry to impute "base" motives to others. Do not be quarrelsome, nor allow yourself to get too easily irritated. And, above all, don't carry a chip on your shoulders. There is no surer way to lose your popularity and your friends.

You are, perhaps, inclined to be a trifle fussy. It is all very well to be methodical and to deal carefully with things that come up from day to day. But don't over do it. It ceases to be a virtue and becomes a nuisance not only to yourself but to others.

Mrs. M. G. A.: In regard to your singing—keep at it. It is no use getting downhearted and spasmodic about it. There is only one way in which you can expect to get anywhere in this, and it is by keeping at it. You have a gift for this, and it would be a pity to ignore it, or not to try really earnestly to get the best from it, merely because of a few passing disappointments. Remember Robert Bruce and the spider!

Miss S. writes as follows: "I am 17 years of age and in love with a man of 39. My parents do not approve of my having anything to do with him, and yet he wants to marry me. I think the world of him, and do not know what I should do if I had to give him up. What do you advise?"

I believe that you would be doing a very unwise thing to marry him. His writing tells me that he is of a domineering nature, is selfish and undoubtedly is very set in his ways. He is not at all of the generous or sympathetic type. Your own writing, on the other hand, shows that you are inclined to be variable and changeable. You are, in my opinion, more 'in love with love' than with your friend. In any case, you are too young to do anything serious in this matter at the present, and it will do you no harm to wait a while.

Would you like to have your handwriting analysed? And perhaps you have some friends whose real characters you would much like to know? Mr. Hibbert can help you as he has helped so many others. Send specimens of the handwriting you wish to be analysed, and enclose 10 cent coin for each. Send birthdate in each case, and enclose with a 3c stamped addressed envelope to: Lawrence Hibbert, Winnipeg Newspaper Union, 175 McDermot Ave., Winnipeg, Man. Letters are confidential and replies will be forwarded as soon as possible.

History Of The Sponge

The history of sponges dates back to the time of Aristotle, when Greek warriors used them to pad their helmets. Not until the middle of the 19th century did microscopic research definitely prove them to be animals and not plants.

Are You Rundown, Tired?

Mrs. Mabel Murphy of 13 Westinghouse Ave., Apt. 4, Hamilton, Ont., said: "About five years ago I was terribly rundown, had indigestion, couldn't sleep or eat, lost strength, and my weight fell off 20 pounds. Before I had finished the first bottle of Dr. Pierce's Favorite Prescription I felt much better, had more strength and better digestion." New size, tablets 50 cents, liquid \$1.00. Large size, tablets or liquid, \$1.35.

Nutritional Value Of Grass

Doctor Thinks It Might Become Part Of Child's Diet

What is the nutritional value of grass—should it become a part of child's diet?

Why not? asks Dr. G. I. Christie of the Ontario Agricultural College at Guelph. Grass has become a successful part of a chicken's diet, and the matter has been brought to the attention of nutrition specialists at John Hopkins University, who have urged the continuance of the experiments.

"Grass tea"—steeped from ordinary grass—was fed to chickens at the Agricultural College. They matured one pound underweight, but they had plumage comparable with the best of show birds. The ashes from grass were included in the diet of chickens and they matured one pound overweight and with equally bright plumage and color.

"What's in grass? We don't know, but there's something there," Dr. Christie said.

A Children's Paradise

Description Given Fresh Air Schools At Hendon, England

"Almost a children's paradise" is the description given the fresh air schools being built at Hendon. Educationists go from all parts of the United Kingdom, and from abroad also, to see the new type of school.

When Hendon needs a new school the authorities first select about five acres of land, as far away as possible from a main road, and make a garden and playing field. Amid herbaceous borders and rose trees a light and airy bungalow is erected in the form of a quadrangle. A verandah runs round the quadrangle of this bungalow-school, on to which all the classrooms open.

Glazed partitions take the place of walls on the inner side of the quadrangle, and these can be removed, so that all the classrooms are fully open to the fresh air. Hendon has four of these semi-open-air schools and a fifth is to be built.

X-Ray Revealed Too Much

Ralph J. Anderson, attorney, walked into a doctor's office at Kansas for a physical examination bearing \$15 in his billfold—a \$10 bill and a \$5 bill. The physician placed Anderson under the X-ray machine. When the examination was finished, Anderson asked: "How much do I owe you?" "Fifteen dollars," the physician replied.

More Poultry Exported

Poultry exports in February amounted to 786,000 pounds valued at \$141,606, more than four times that of the same month last year when 141,035 pounds valued at 26,036 were exported, the Dominion bureau of statistics reported.

Little Journeys In Science

CELLULOSE

(By Gordon H. Guest, M.A.)

Cellulose makes up the chief part of the cell walls of plants. Cotton is about 85 per cent. cellulose, and the materials making up the remaining 15 per cent. can be easily removed with certain solvents, leaving the pure cellulose. Absorbent cotton is almost pure cellulose. Scientists have found that cellulose does not dissolve in any of the ordinary solvents, but is converted into soluble compounds by the action of certain chemicals. Thus, it has been found that when cellulose is treated with lye, a compound is produced which is soluble in a liquid called carbon disulphide. This reaction is the basis of the production of most of the rayon in America.

Science has also changed this important plant product into many other useful substances. For example, when it is treated with concentrated muriatic acid it is changed into dextrose or grape sugar, which is used in large quantities in the production of candies, jellies, jams, syrups and other sweets. Sulphuric acid of the proper strength converts cellulose into parchment paper, while a cold 30 per cent. solution of lye produces mercerized cotton. When cellulose is treated with a mixture of nitric acid and sulphuric acid a compound known as nitrocellulose is produced. Nitrocellulose is a white inflammable solid which under certain conditions is highly explosive.

Nitrocellulose has many important commercial uses. It is the chief constituent of smokeless gunpowders. Photographic films are also made from it. It is the basic material in all the lacquers that have been used so much in recent times, especially in the automobile industry. Imitation leather used for bookbinding, automobile cushions, hand bags, and trunks consist of a canvas base coated with nitrocellulose. Collodion is a solution of nitrocellulose in a mixture of alcohol and ether. Celluloid and similar substances are mixtures of nitrocellulose and camphor. It is well to remember that celluloid is inflammable as many serious accidents have resulted from bringing it near a hot flame.

DR. WERNET'S POWDER FOR HOLDING TIGHT FALSE TEETH

No slipping or sliding—no clicking when you use this grand powder that most dentists prescribe—it's a joy to all users and is the largest seller in the world—leaves no colored, gummy taste—all drug stores.

"The Canyon Trail", Etc.

CHAPTER XV.—Continued

Already elated by the drinks he had had at the dinner and by the arrival of his young partner, Carr was ablaze. His face was flushed and his voice cheery as he headed for the bar. Behind him Frank Crewe kept close. He hated nights like this and he waited only the first chance to get old Joe Carr back to the Hour-glass. At a word Carr turned on him.

"Oh, shut up, Frank. I've not been in town for a year. This is my night to howl. . . Here Stone. . .!" He grabbed Duro by an elbow. "You and Keene are the boys for my money. You've come just in time, Keene. We'll go into closed session to-morrow and show the Broken Spur a thing or two. . . Come up, Keene, an' take your liquor. . ."

Peyott's eyes focused on the slender figure that stood by old Joe's side. So that was the man who meant to hang him! His eyes lit redly! He licked his lips with a dry tongue and stared across the room. The door slapped open and Sam Dustin slouched to the bar. If his quick glance took in that back door, if he saw the dark figure of Peyott huddled in the shadows, no one knew it.

"I reckon we can do better at the hotel, Mr. Carr. . .!" Peyott saw the newly arrived Gerald Keene touch the old ranch-man's arm and he caught the sharp reply.

"Better'n what? This liquor's good enough. I'm tired of talkin'. Seems like I've been talkin' all my life. You're all right, son. Any nephew of old Peter Vinton's bound to be all right. Not like these lousy Broken Spur heel-taps. They've been lootin' hair an' hide off the Hour-glass for five years now an' . . ."

He swept on in a mad speech. There were Broken Spur men in that crowd and at a motion from Dustin they swept aside into a group, dark-faced and angry; ready to start a fight at a moment's notice. Peyott sensed the tenseness. Suddenly Carr swung away from the bar and with Gerald Keene at his elbow headed for the roulette table.

"Gi' me a stack of chips. . . Not white. . . Blues an' reds. . . Now watch! I'm playing Cripple Creek. . . One, three five, seven an' eleven. . ."

Twice he repeated his plays and each time the reluctant cashier

thrust his winnings across the table. Suddenly the big electric light over the table flickered and died and a voice shrilled out:

"Somebody's changin' his luck. A nigger passed the power-house. Keep your hands on yore winnin's, you wall-eyed fools. . ."

The big light blinked once and went out again in a blackness that tasted of smoke and dirt and sweat.

"Somebody see what the hell alls that wire. Look to the fuse-box!"

Peyott heard the front door slam. This was the one moment that might never come again. It was the opportunity he had hoped for!

He wriggled like an eel inside that door and headed straight for the roulette table where had had seen Gerald Keene standing by the elbow of old Joe Carr. He knew that room as a horse knows his own stall and at six feet a man cannot miss even with a two-and-a-half-inch Derringer.

The darkness hung like a curtain. Men pawed about the floor waiting for light but before that light could come there was a short, barking report, a curious metallic smack like a fire-cracker exploding in a can, but there were no sparks to break the darkness. Then suddenly the room was flooded with white light that blinded every eye and men blinked at each other dazed and staring.

"God God! Look there. . .!" A man shrilled out in terror.

Gerald Keene lay across the roulette table with blood running over the green cloth and his fingers convulsively clutching at the wheel.

"Shut the door!" shouted a voice from the rear. "A man's been shot. . ."

That was no new thing in the Silver Dollar but the doors shut as if by magic. Stone thrust the milling crowd aside and was in turn forced back by Crewe.

"Let me have him. . .!" Stone laid the limp figure on the table. "For God's sake some one get a doctor. The man's been shot. . ."

"Who is he? Where'd he come from? Who is he? A dozen voices shouted the questions as though the answers could make any difference.

"It's Gerald Keene, half-owner of the Hour-glass," said Crewe. "He only got to town this evenin'. . ."

"Keep that door shut till the Sheriff gets here," said a sharp voice. "This is a matter for the law I reckon. . .!" Dustin strode forward. His hat was awry; his coat half-off and his face was red. Anger was plain. Crewe took one look at him, but Joe Carr was first.

"By God," he said. "It's a new card to find Broken Spur men on the side of law an' decency. But the man's right. . ."

"Hold everybody. . .!" Big Jim Garcey, the Sheriff barged into the room, slammed the heavy front door and locked it. "This calls for a show-down," he said. "Who fired that shot?"

No one answered him. The light smoke filtered up through the lamp and the bartender hammered at the closed door. He had gone at once for Doctor Epps, the "vet", the only doctor Seco boasted who would be sober at that hour. Garcey opened the door and Epps, the doctor, pitched into the room. Logan, the bartender thrust him toward the roulette table where the wounded man lay with his head on Stone's arm.

"How bad's he hurt, Doc?" Logan retrieved from the bar his only specific for gun-shot wounds. . . a bottle of whisky and held it to the

TO ALWAYS GET
FAST PAIN RELIEF

An Aspirin tablet starts disintegrating as soon as it touches moisture. That means that Aspirin starts "taking hold" . . . eases even a bad headache, neuritis or rheumatic pain almost instantly. And Aspirin is safe. Doctors prescribe it. For Aspirin does not harm the heart.

Be sure to look for the name Bayer in the form of a cross on every Aspirin tablet. Aspirin is made in Canada and all druggists have it.

Demand and Get
ASPIRIN
TRADEMARK REGISTERED IN CANADA

victim's lips while Epps made a hasty examination.

"Just above the liver," he said finally. "Looks mighty bad to me."

"Good God! D'you think he'll die?" demanded Crewe.

"Huh. We'll all die. Some'll go before the rest. That's all I can promise right now. Logan, let me have that bottle. . .!" He was poking and prying in the clothing of the wounded man. "Here's what hurt him. The bullet went clear through him. . .!" and he held up to their gaze a stubby, soft-lead bullet. "It's a Derringer bullet," he said. "I'll bet there hasn't been one of these fired since the Civil War. The question is . . . Who fired it?"

Stone thrust forward impatiently. "Sheriff," he said sharply; "for Heaven's sake get some action."

That brought Garcey back to the present.

"Lay your guns on the bar," he said. "Every man's under suspicion till this mess is sifted. Has anybody left here since the shootin'?"

"No. No. . .!" A dozen men swore to it. "Not a soul has left."

Stone laid his own gun on the bar and stared at Dustin who followed suit. Every man in the room trooped up to the bar and laid his gun on it to be carefully examined by Garcey.

"Some one in this outfit's got a Derringer cached," he said curtly. "No sense wastin' time over a lot o' forty-fives when I know it was a forty-one hit him. "You first, Dustin. . ."

Dustin raised both hands and grinned as his questioner felt every inch of his person. Then he stepped aside and man after man was subjected to the closest examination. Each, as Garcey nodded, stepped back grinning.

"Nothin' doin'," he said sharply. "You can all of you go. . ."

One by one they departed and Garcey examined every window in the room but all were closed. No pistol could have been thrown out after it had been fired.

"Damned if I kin figger it out," muttered Garcey. "There's nobody left but the Hour-Glass men. It's sure they never shot one of their own crowd. However. . . I got to search you all," he said suddenly. "You first, Stone. . ."

Carr, still a little dazed by the liquor he had drunk and by the rapidly occurring events, stood staring at them as, first Stone and then Crewe, stepped up to Garcey and were examined.

" . . . You now, Joe. . ."

(To Be Continued)

Say It In Greek

A great Greek scholar, when visiting a woman's college in the United States, was asked whether he would do the institution the compliment of translating their college motto into Greek. He most courteously agreed and then asked what the motto was. It was placed before him and he read the words: "Pep without purpose is piffle."

A total of 5,899 cattle and 18 calves were exported from Canada to the United States from February 7 to 21, 1935

Little Helps For This Week

The Lord heareth your murmurings which ye murmur against Him. Exodus 16:8.

Without murmur, uncomplaining, In His hand, Leave whatever things thou canst Not understand.

One great characteristic of holiness is never to be exacting—never to complain. Each complaint drags us down a degree in our upward course. If you would discern in whom the spirit of God dwells, watch that person, and notice whether you ever hear him complain.

When we wish things to be otherwise than they are we lose sight of the great practical parts of the life of godliness. We wish and wish when, if we had done all that lies on us, we should fall quietly into the hands of God. Such wishing cuts the very sinew of our privileges and consolations. You are leaving me for a time; and you say you wish you could leave me better, or leave me with some assistance; but if it is right for you to go it is right for me to meet what lies before me without a wish that I had less to meet, or were better able to meet it.

Times Work By Candles

When Two Burn Out English Flint-Knapper Goes Home

There is one man in England who still times his work by candles.

He is George Ashley, who burrows deep in the earth at Brandon in Suffolk, searching for the flints which his mate Herbert Field chips to fit the old flintlock guns still used in primitive places. They are two of the last flint-knappers, and old Mr. Ashley is surely the only man in England who prefers a candle to a watch as a timekeeper.

Though he is seventy-one he still makes his way each morning down a shaft fifty feet deep, looking for flints as did Stone Age men in pits close by when they wanted to renew their arrowheads and axes. Besides his lunch he takes with him two candles, and when these are burned through he climbs up out of the pit and goes home. They tell him when his day's work is done.

Housing Plan

Housing Scheme In Winnipeg Most Successful

The 1920 housing scheme had been "most successful" in Winnipeg, Alexander Officer, chief inspector of the division of sanitation and housing, told the parliamentary committee on housing at Ottawa.

The house had been built at an average cost of \$4,000 for "white-collar men," who liquidated their obligation in the form of rent over a period of years, he said. The city housing commission had met all its obligations and continued to have money in hand.

Mr. Officer emphasized his own particular concern was public health. In Winnipeg, out of 46,810 houses, there were only 247 without sewer and water connections. He doubted if there was another city in Canada with the same record.

In the past ten years almost a million people in the United States—944,174, to be exact—have lost their lives from accidents.

Mexico leads all Latin-American countries in the area of vast land estates.

In the strait and narrow way you avoid traffic jams.

You can count on

ROYAL
YEAST CAKESfor these light,
tasty breads, buns
and coffee cakes

This crusty white loaf tastes as good as it looks! See page 8 of the Royal Yeast Bake Book for directions.

A luscious Pecan Roll is new and different—enjoyed at every meal. Recipe in Royal Yeast Bake Book, page 15.

Try Streusel Coffee Cake for breakfast or lunch—It's delicious with coffee or milk! See recipe in Royal Yeast Bake Book, page 12.

THERE'S never any question about perfectly leavened bread when you bake with Royal Yeast Cakes. You can be sure of full leavening power no matter how long they have been on your pantry shelf. Individually wrapped in airtight waxed paper, they reach you in perfect condition and keep fresh for months. Royal Yeast Cakes have been the standard of quality for over 50 years.

Two Helpful Booklets . . . FREE!

The "Royal Yeast Bake Book" tells all about the art of breadmaking and gives tested recipes. "The Royal Road to Better Health" explains how the regular use of Royal Yeast Cakes as a food will improve your health.

Burnside Notes.

There will be a meeting of telephone subscribers on lines 5, 7, 14 and 21 in the Lone Pine Hall on Saturday evening at 8:30, for the purpose of organizing a company.

Don't forget the W.I. Picnic and Dance on May 24th. A Calgary orchestra will furnish the music.

Messrs. Ralph Long and Reg Jamieson spent Sunday at the Fred Thompson home.

Mr. and Mrs. John Topley spent Tuesday in Calgary.

Lone Pine W.I. will meet at the Hall on Thursday, May 9th, when Mrs. James McCulloch will be hostess.

Mr. Albert Bennett of Carstairs visited at Mr. N. Eckel on Sunday evening.

Mr. and Mrs. Sam Elliott and family spent Sunday with Mr. and Mrs. Wm. McCulloch.

Miss Helen Pross, Happy Wall and Sam McAllister were Sunday supper visitors at the home of Mr. and Mrs. Bert Pross.

Mr. and Mrs. Walter McCulloch spent Sunday with the latter's mother, Mrs. R. Bittner.

Miss Sarah Zook, who formerly preached at Sunnyside and Burnside is visiting Mrs. B. Wood and other friends in the district before leaving for her new charge.

Mrs. Chas. Marden, who was sorry to hear, has been very sick this last week.

WEEKLY JOKE

Jemima at the zoo saw a zebra for the first time. "Rastus," she said, "what kind uv a animal am I?"

Rastus also gazed in much perplexity and awe. He had never seen one before, either. "Whey, Jem, dat are are a sport model jacksass."

The Abandoned Smithy.

By LEW WHIGLESWORTH, DIDSBURY

Pathetically, alone it stands; A shrunken outcast, grey; Akin to some old broken man; A ruin relic of a different day. Its ragging roof and walls a-leak, Its idly-swinging door—

No more the shapely shoe he turns; But toils with modern tools of death, Inhaling ghastly naphtha fumes. In lieu of charcoal's pungent breath.

No longer creaks to tramp of steel; Nor burst of flame we see; Light up the blackened, crumbling forge.

The smith—oh, where is he? Why now is stilled the anvil's ring? The bellows pure and right? That helped his livelihood to gain In happier years gone by.

No more the shapely shoe he turns; But toils with modern tools of death, Inhaling ghastly naphtha fumes. In lieu of charcoal's pungent breath.

"Make way for progress"—hear the cry; That daily in our ears is borne. To mock the equine's gentle neigh— The raucous blast of motor horn. "Keep logging on, O' restless man!" Thus civilization's sentence hand; While smith and smithy too pass on, Fond romance backs into discard.

PURE WHISKEY.

A machine which can take the "hangover" out of whiskey was announced by the American Chemical Society recently. The inventor said, "one thing the new device can do is to take the 'hangover' out of a whiskey."

The "hangover" is caused by the presence of certain impurities that are always found in new whiskey. "They are partly removed by aging from 3 to 8 years in charred oak barrels. With the machine the impurities can be removed in a few minutes in the new separator."

It was developed not specially for liquors, but for the distillation and solvent processes used in making gasoline and other petroleum products.

New Ready—Good Quality Writing Paper, 100 Sheets 25c. Pioneer.

LOCAL & GENERAL

The golfers were out in full force Sunday limbering up for the season.

Miss Hines of Field, B.C. spent a few days with Mrs. W. Smith this week.

Miss Esther Campbell of Carstairs spent the weekend with her friend Miss Wynne Stader.

Mrs. D. Edwards, who went to Saskatoon to attend her father's funeral, returned home Sunday.

Mr. J. Simonton, who spent his vacation at his home in Calgary, is back at his desk in the Royal Bank.

Mrs. Bert Minton of Lacmieu visited with her parents, Mr. and Mrs. Dan Geiger, on Saturday.

Messrs. George Liesmer and Jack Pearson took a motor trip to Edmonton and district last weekend.

A meeting is called for all the committees connected with the Jubilee celebrations at the School tomorrow (Friday) evening at 8.

Mr. Sid Willis, who has been closing the dry goods stock, at Crossfield the last few weeks, is again behind the counter at Halliday's.

Mr. Aylmer Liesmer of Calgary returned home Sunday after spending the Easter holidays with his parents, Mr. and Mrs. John Liesmer.

Mr. George Hawkes, who has graduated from the University of Alberta, was home over weekend, prior to leaving with other students to visit the mines in the Western States and British Columbia.

The social credit meeting held under the auspices of Group No. 2 on Tuesday was only fairly well attended, the condition of the roads being bad. Mr. F. Anderson of Calgary outlined the system and the audience listened to the lecture cast by the social credit chief, Mr. W. Aberhart.

The fire brigade got a work out on Friday morning when fire broke out at the Schweitzer residence. The fire broke out on the roof but quick work by the neighbors got it extinguished before it got a hold.

The fire alarm was sounded and both engines got to the scene within five minutes of the alarm but it was unnecessary to unlash.

A well attended meeting of the I.O.O.F. was held at the home of Mrs. Russell Berchert on Monday evening. Mrs. J. Hugel, who had the honor of being elected 4th Vice President for Alberta at the convention held early in April gave her report. It was decided to hold a violet tag day in May. The funds raised will be used on the nursery at the Didsbury Hospital.

The choir of Oide United Church intercalverged with the Didsbury choir at Knox Church on Sunday and rendered special music. Rev. F. Hawley James of Oide had charge of the service. The Didsbury choir rendered the cantata, "Resurrection Light" at the Oide church. There was a large attendance at both churches and the interchange of choir proved to be a very popular departure.

All Business Houses Closed Jubilee Day

All business houses will be closed on Jubilee Day, Monday, May 6, and open next Wednesday afternoon.

Here and There.

Skating and bear-hunting were combined at the Bait Camp, Metagama, recently, when two parties of a photographer, routed a bear out of his den and stood over while the animal was "shot" by a movie camera.

The Orient with its mystery and its allure, its brilliant colors and picturesque scenes, will form the inspiration for the new Arts and Crafts exhibit of the spring festival, to be held the week after Easter at the Canadian Pacific Hotel, Toronto, Ontario.

The great festival at Banff and the 10th anniversary of the Canadian Pacific Hotel, Toronto, Ontario, will be celebrated at the Banff and the 10th anniversary of the Canadian Pacific Hotel, Toronto, Ontario.
